casely by heavy hitting, this making its fifth consecutive victory. The crowd was so large when the same began that it encircled the field, and a ground rule, which was adopted, making a hit into the assemblage good for two bases only. Orth, who was recently secared from the Lynchourg (Va.) club, ottched his first full game for Philadelphia and did well. Up to the seventh inning only two singles and as many doubles the latter by Duffy, were made off his delivery, but in the seventh and eighth innings he was hit rather freely. Orth performed a feat in the first inning by retiring the side on four pitched balls. Weather clear. Attendance, 14,700.

PAINFULLY BURNED.

An Accident Liable to Happen to All People.
"Accidentally burned," is a familiar

heading in the newspapers of this country, for it applies to all cases in which a person is burned or scalded. Even the savages in revolutionary times met with accidents of this kind, as shown in the illustration. Teday such accidents are hap-pening in every house in the land, and thousands of people are suffering through ignorance of the manner of treating such injuries, on which subject a few words would not be out of piece.

No well regulated bousehold should be

without a medicine chest, and in the chest

should be constantly kept a supply of bandages, absorbent cotton and a bottle of that latest and greatest discovery in the Quratol, manufactured by the Quratol Remedy company, of Nor-folk, Va., and sold by all druggists at 50 cents a bottle. This preparation is quicker in curing burns than anything yet discovered. When an accident of this kind oc-curs Quratol should be applied at once, and all pain will be instantly removed and

and air pain will be instantly removed and all sores will speedily heal.

Not only will Quratol quickly cure burns, but it will give instant relief to those suffering from sores, cuts or wounds

of any kind, or any skin disease. Chief M. J. Ryan, of the Norfolk (Va.) fire department, is a strong advocate of Quratol. He has used it himself, and seen it used in a number of emergency cases by the men of his department on burns, bruises and wounds with entirely satisfactory results. He recommends it to all firemen. Mr. Paul Vaughn, of Baleigh, N. C.,

says: "My wife very badly burned three of her fingers. One application cured her of the burns. I shall always keep it in my house, for there is nothing equal to it."

Mr. J. E. Booker, editor of the Suffolk Herald, Suffolk, Va. says "I have found Quratol a valuable remedy in my household. My wife has used it for a severe scald with entirely satisfactory results. We have also used it in various other instances and consider it a valuable remedy."

MARK TWAIN EXPLAINS.

HE WILL WORK HARD TO PAY 100 CENTS ON THE DOLLAR.

That is Why He Has Undertaken a Lec ture Tour of the World-Honor a Hard Taskmaster.

VANCOUVER, B. C., Aug. 17 .- Samuel L. Clemens (Mark Twain), who is about to start for Australia, said yesterday in an interview:

"It has been reported that I sacrified, for the benefit of the creditors, the property of the publishing firm whose financial backer I was, and that I am now lecturing for my own benefit. This is an error. I intend the lectures as well as the property for the creditors.

"The law recognizes no mortgage on a man's brain, and a merchant who has given up all he has may take advantage of the rules of insolvency and start free again for himself; but I am not a busi-

again for himself; but I am not a business man, and honor is a harder master than the law. It cannot compromise for less than 100 cents on the dollar and its debts never outlaw.

Thad a two-thirds interest in the publishing firm whose capital I furnished if the firm had prospered I should have expected to collect two-thirds of the profits. As it is, I expect to pay all the debts. My partner has no resources, and I do not look for assistance from him. By far the largest single creditor of this firm is my wife, whose contributions in cash from her private means have nearly equalled the claims of all the others combined.

"In satisfaction of this great and just

cash from her private means have nearly equaled the claims of all the others combined.

"In satisfaction of this great and just claim sive has taken nothing, except to avail herself of the opportunity of retaining control of the copyrights of my books, which, for many easily-understood reasons, of which financial ones are the least, we do not desire to see it in the hands of strangers.

"The present situation is that the wreckage of the firm, together with my wife's aid, will enable me to pay the other creditors about 60 per cent. of their claims. It is my intention to ask them to accept that as a legal discharge, and trust to my honor to pay the other oper cent, as fest as I can carn it. From my reception thus far on my lecturing tour, I am confident that if I live I can pay off the last debt within four years, after which, at the age of sixty-four, I can make a fresh and unincumbered start in life.

"I do not enjoy the hard travel and broken rest inseparable from lecturing, and if it had not been for the imperious meral necessity of paying these debts, which I never contracted, but which were accumulated on the faith of my name by those who had a presumptive right to use it, I should never have taken to the road at my time of life. I could have supported myself comfortably by writing but writing is too slow for the demand that I have to meet, therefore I have begun to lect fre my way around the world. I am going to Australia, India, and South Africh, and next year I hope to make a tour of the great cities of the limited States. In my preliminary run through the smaller cities on the northern route I have found a reception the cordiality of which has touched my heart and made me feel how small a thing money is in comparison with friendship."
